This material consists chiefly of microfilm, but includes some photostatic copies of captured German documents. There are approximately 150 numbered films plus some unnumbered films. Accession lists indicate the contents of most but not all of these films.

C. Copies of Materials Published by USSBS

These cabinets contain sets of published reports on plants, areas, industries, etc. Most of these reports are listed in the printed leaflet dated 12 February 1946 - "List of Reports". There are three complete sets of these reports.

In addition there are collections of supporting documents used in the preparation of reports.

D. USSBS Tabulated Records

Cabinets of tabulated reports on Air Attacks in Europe showing day by day attacks on all targets. In addition to this there are approximately 65 boxes of IBM type punch cards which can be run through machines to get any sort of report desired from the material available in AAF Form 34.

E. USSBS Divisional Files

This collection is incomplete since some of the divisions have not yet turned in their files. The materials already in the USSBS Library include some materials in cabinets and additional materials still in crates. Considerable screening and sorting will be necessary in this case.
